

Buncee for Schools and Districts (BSD) is our product for school or district wide implementation of Buncee.

Roster Synchronization

Buncee for Schools & Districts offers roster synchronization with Google Classroom and Office 365, as well as Google and Microsoft single sign-on.

Centralized Management

Easily manage permissions and oversee all the Buncees and Buncee Boards being created by users in your school or district.

Unlimited Student Accounts

Provide Buncee accounts to all your students with Buncee for Schools & Districts. Students across your school/district can access their Buncee accounts from any connected device.

Customized Media Library

Upload graphics and customize media options for your users. Districts create their unique Buncee experience through a custom domain.

is a COPPA compliant, award winning creation and presentation tool for educators and learners of all ages. Learn more about the Buncee creation & classroom features [here](#) and [on our blog](#).

Buncee Benefits

- Increase Student Engagement & Content Creation
- Enable Differentiation & Personalization In Classrooms
